Foreword

Many will agree that while we are filled with the vigor and energy of youth there can exist no problem which will present itself as an insurmountable obstacle. At times tasks confront us which make apparent our limitations, however we proceed with confidence that we will obtain the answer somewhere or somehow. After all our "parents" have faced similar problems, our teachers are trained to assist us, and school buildings are provided for this purpose. Consequently we dream of the future, planning for bigger-better things, which loom before us with expectations as glorious as the morning sun rise. This yearbook will remain a permanent record of our accomplishments toward this end during the 1951-52 school year.

Dedication

The enthusiasm of youth to accomplish great things is our motivation. The school provides equipment, however it is naturally limited and we are frequently forced to call upon others to lend special equipment or skills. The generosity of the "Business Men of Buchanan" makes possible the successful accomplishment of much which would otherwise remain but hopes or dreams. We therefore dedicate the Colonnade of '52 to these people.

The seniors, though few in number, contributed valuable leadership and shouldered the responsibility associated with such an elderly group. Naturally the burdens confronting these people have been heavier than will be those of Buchanan's future seniors, as subsequent years will find us with a full senior class. The future graduates of Buchanan High School will ever be indebted to these seniors and their predecessors who laid the ground work and paved the way.

Juniors

The Junior Class has probably been the most stimulating school year for all of us. At this point we students have successfully overcome the uncertainty and apparent hazards of our Freshmen and Sophomore years. We have reached the threshold at which we shall come in to our own as mature individuals. We are the understudies of our senior leaders today for the responsible positions which will be ours tomorrow. The significant fact associated with this class is due to its distinctive honor as the first senior group adequately trained at B.H.S., The first group to have five years of high school.

Our grandparents look at us in a bewildered manner when we refer to our youthful pledgelings as adolescents, however were they in the position of the Juniors and Seniors they too would realize that these so called "wise fools" are typically such creatures. Imitating the "wise old owl" they serenely and meditatively look down upon the seemingly foolish antics of these energetic chippies. The school elders have already learned through experience the growing pains which are affecting these youngsters who look upon the passing of their Freshman year as if they and come of age, yet school would not be the same without their spirit.

All of us have experienced the uncertainty of entering into a new situation; the self-assurance and experience, the wise attitude of those who have preceded us, almost induces palpitation of the heart. So it is with our freshmen, reduced from the status of king-pins in the grade school to lesser beings in this advanced educational institution. For a time they flounder about, however they soon adjust to their new home and feel that they are actually growing up; despite the hinderances of the "wise fools", who assume it their personal responsibility to orient these so called "rats".

EIGHTH GRADE

We of the Eighth Grade have found this to be not only a year of excitement, but one of enlightment. At last our dreams were realized—we entered the high school building! We are indeed overjoyed at discovering a new phase of school life. Now we are looking forward with pride and anticipation to being Freshmen next year.

Student Council

Organized four years ago, the Student Council Association is probably the center of all activities in the school. Composed of students, who are best qualified for leadership, this body helps our school in many ways. This being the government body of our school, sets an example for all the others to follow.

It has made money in many ways to help the school buy necessities which might have not been gotten otherwise. This organization promotes good sportsmanship and builds the morale of our school to a high standing. This activity gives the students a feeling that they have a say so in how their school is run. It draws the students, in this way, closer to their teachers. Later on it will help them to understand the government in our community, and how it is run.

This year the Faculty Advisors are Miss Mary Louise Cunningham and Mr. B. T. Norris.

Dramatics

The Dramatics Club is composed of students who are interested in theater and play production. Their goal is to create an active interest in Dramatics in the school. Our purpose is: To develop dramatic talent and to cultivate a taste for the best things in dramatic art.

TENNIS CLUB

The tennis club was newly organized this year. Although we have not had tennis at the school for several years it was one of the more popular sports participated in years ago. The courts having been allowed to deteriorate over the years, will have to be rebuilt. This is hoped to be accomplished and also the development of a formidable competitive team. Any who have tried it can realize that tennis while looking easy to play from the sidelines, is actually one of the most difficult games to play properly; however, with proper supervision and instruction anyone can learn to play a fair game. While we may not have any Don Budges or Bill Tildens, Buchanan's representatives will hold their own on the courts.

Monogram Club

Only two years old, the Monogram Club originated last year at Buchanan High School for both boys and girls who had earned a letter in any phase of sports and to go out for them; also to develop more school spirit, as well.

Students, who have earned letters in football, baseball, and cheerleading, are eligible for membership to this club.

Glee Club

Tra, la, la, la. In Buchanan High you'll find a mixture of sopranos, altos, basses, and tenors. Together you've got one of the best Glee Clubs you'll ever find. The main objective of the club is to train voices and to understand and to respect highly the music of great people, and the higher class of music.

Included in a year of singing programs for the Glee Club is a Christmas Program, Spring Concert and entering into the State Festivity of music held once a year.

Boys Physical Education Club

The Boys Physical Education Club has a unique program which was instituted on popular request. At each meeting the student trys to guess the scores of various sports events for the coming weeks, an average of each boy's selections are kept. The ultimate purpose of the organization is to promote a healthy interest in sports events, as well as the proper sportsmanlike attitude.

Safety Patrol

The School Safety Patrols were organized on the premise that police, school personnel, parents, and pupils themselves should assume cooperative responsibility for the protection of all school children going to and from school. Every effort to prevent unnecessary risk or injury is justified if a student is to be given his rightful opportunity to grow up and profit by the time and effort spent on his education.

K. V. G.

This organization is one of the most useful to the entire community, it's purpose is designated by its name- to Keep Virginia Green. These boys make themselves available on call to assist our forestry corp in fighting fires which might otherwise destroy Virginia's beauty and resources. These boys along with serving this useful purpose are also learning much about forestryand its conservation. All of its members certainly deserve commendation for their note-worthy efforts.

BRAWN

ATHLETICS

Much interest is centered around athletics in our school. Although the girls athletics are fewer than the boys, they do their best with what the weaker sex is offered. While those big masculine bullies race for a touchdown or score a goal, the girls are in there trying to compete with the boys for the limelight.

It doesn't matter whether our team is league leader or cellar dweller, every player pulls together as a magnetic force so as to promote teamwork. Even though the Blue Devils are defeated at times, we boast a formidable squad headed by the mastery of our coaches who teach us that it's not that we win but how we play our game!

On crisp fall week-ends thousands gather at big athletic fields to see a great game called football played between two opposing teams. However, on our athletic field, hundreds gather to see the game as it is played by our "professionals'. Whether it be professional, amateur, or scholastic, it is football and it is great! It is a game full of excitement and challenge. When you watch a player weave his twisting pattern up a football field you scream for a touchdown.

Even if our team is out-manned or out-weighed by a rival, they are in the game fighting harder because the odds are against them.

Football interest is sited everywhere in town. Football is in the air and when a day like this arrives on a calender, football is the talk of the office, stores, and workers everywhere. Time goes by and the "big attraction" lines up on the gridiron so that people in top-coats with school colors flying from their lapels can witness the greatest of all athletics. With all power our school will score their touchdown in the old unspectacular, but relentless way!

COACH QUINN

Girls' Basketball

When Basketball season bounces around at B. H. S. every girl and boy has "basketball on the brain". In all Physical Education Classes basketball is played. Before school takes up students are out on the court playing with a volleyball or basketball. During the lunch hour girls get out on the court and practice long, short, foul, hook, and new shots. The entire school has to witness this from November until March, annually. Experience is the best teacher and the students are getting into practice.

The girls start learning a few techniques of basketball in the 7th grade. In the 8th grade they get their first real experience on the court. Then comes the major field- Varsity Team!

Boys' Basketball

Students also get to play real basketball on the varsity team of our school. One game is played here and a return match is played at their school. The experience that one gains from playing here and there is valuable. Whether we win or lose, it's all the same because both guest and host are very co-operative. While we're at other schools we are made to feel at home. In turn we try to make guests of our school "be at home at B. H. S."

Cheer Leaders

Whether it be a new school yell or a big game every student goes through cheering motions with the cheerleaders because they are so full of pep for B. H. S. When a game is ending and the players are making a futile attempt for a come-back, a cheer from the grandstand can almost produce that touchdown or goal.

In every school there's a need for school spirit and the cheerleaders encourage a fellow or gal to be a sport because of the cheers which ring out for our team. Even an extra yell is cast toward the opponent if a spectacular event occurs. No doubt about it, our cheerleaders are on the B-E-A-M and they cheer us along to v-i-c-t-o-r-y.

CHEERLEADERS
